D1 baseball coaches may start calling, texting and emailing

Baseball is different: D1 baseball opens August 1 of junior year, not the June 15 date most sports use. Before this, a coach can't answer a recruiting message, even if your kid sends it first.

If missed: None for starting later. It's an opening, not a race.

Open the NCAA Eligibility Center certification account

D1 and D2 recruits need a certification account ($110 domestic, fee waivers possible) before any D1 official visit. The free Profile Page isn't enough. Recommended date, not an NCAA deadline.

If missed: Without it, a school can't host you on an official visit.

D1 baseball off-campus contact and visits may begin

Official visits, unofficial visits involving the athletics department, and off-campus contact all open September 1 of junior year. Recruiting talk at college camps opens the same day. The recruiting calendar can still close a specific week.

If missed: Visiting too early, or during a dead period, is a violation that wastes the trip.

HARD DEADLINE

Finish 10 of your 16 core courses before senior year

Division I requires 10 NCAA-approved core courses, 7 of them English, math or science, finished before the first day of the seventh semester. Those grades lock. Your school sets the exact date.

If missed: Can block qualifier status and first-year competition. Senior-year courses can't repair it.

PROJECTED (not yet published)

Projected D1 baseball signing opens

Calculated from current rules: the second Wednesday in November. Not yet a published calendar date. We recheck it when the NCAA publishes.

If missed: No penalty for signing later, but a school's offer can expire. Signing ends recruiting by other schools.

Window

Final amateurism certification request opens

Fall 2029 enrollees can request final amateurism certification in their Eligibility Center account from April 1. It's when the window opens, not a cutoff.

If missed: Not an automatic loss, but waiting can delay clearance to compete.

HARD DEADLINE

Graduate and get final certification

Finish all 16 core courses with at least a 2.3 core GPA, graduate, and have the school send the final transcript to the Eligibility Center. A transcript GPA isn't the same as a core GPA.

If missed: Can delay or block first-year competition. A verbal commitment isn't clearance.
